NOW IS THE PROPER TIME TO PLANT AN ORCHARD. WHY?

The following figures taken from a bulletin issued by the Department of Commerce, Bureau of the Census, June 27, 1921, indicates a decline in orchard planting and also a shortage in bearing orchards. What is true of the apple and peach is doubtless true of other fruits in proportion.

APPLES—Trees of bearing age.

1920	115,265,029
1910	151,322,840
Decrease	36,057,811
Percentage of decrease	23.8

Trees not of bearing age.

1920	36,171,604
1910	65,791,848
Decrease	29,620,244
Per cent decrease	45.0

PEACHES—Trees of bearing age.

1920	65,654,921
1910	94,506,657
Decrease	28,851,736
Per cent decrease	30.5

Trees not of bearing age.

1920	21,623,657
1910	42,266,243
Decrease	20,642,586
Per cent decrease	48.8

Our prices are not the lowest but our stock is of the best. BE CAREFUL OF NURSERY STOCK AT LOW PRICES. In nearly all cases it is inferior stock, poorly graded, and the low price was an inducement to get you to take it. It takes years to find out you have been handed a lemon. This doesn't pay as the difference in price for good, guaranteed trees will be forgotten long before the trees come to bearing age.

ROSES

When you buy our Roses you get with them permanent satisfaction. This satisfaction is based on the fact that our Roses are grown on OWN ROOTS. They grow and bloom, year in and year out. If you want the best, buy own-root roses, not budded plants which are unsatisfactory and short lived. Our selection is of the best.

PEONIES

The list of Peonies we offer has been carefully selected, and we have chosen only such varieties as are of good quality and value. We send out strong divided roots, with three to five eyes, which, with proper care, will bloom the first season planted. It is better to plant Peonies during the Fall season.
